- Hungarian 
- English 
- German 

HOBBIES

- Mountaineering
- Climbing
- Photography
- Triathlon

PERSONAL PROFILE

Experienced software and web developer.

My Bachelor in Software Development taught me to cooperate within teams as well as autonomy.

I have a passion for finding the most suitable and up-to-date solution for any technical problem and for creating scalable and maintainable solutions.

I believe that quality software is the product of meticulousness as much as staying on track with the overall design.

WORK

Waigo s.r.o.

Web development intern / Part-time developer

02/2017 - 03/2019

Back- and front-end web development using ASP.NET framework, Microsoft SQL Server and Azure services.
